

Application S/N 10/631,233
Amendment Dated: January 26, 2006
Response to Office Action dated: September 8, 2005

CS22875J1023

REMARKS/ARGUMENTS

Claims 1-8, 11, 12, 15, 16 and 21 remain pending in the application, as claims 9, 10, 13, 14 and 17-20 have been canceled without prejudice (claim 17 was previously canceled without prejudice in an earlier response). Independent claim 1 has been amended by incorporating the elements of dependent claim 20, and independent claim 8 has been amended by incorporating the elements of dependent claims 9, 13 and 14. In addition, independent claim 15 has been amended by incorporating the elements of dependent claims 18 and 19. Finally, independent claim 7 has been amended by adding elements that are similar to what is recited in dependent claims 5 and 6.

In view of the above, Applicants submit that independent claims 1, 7, 8 and 15 are patentable over the prior art. Applicants also believe that those claims that depend from these independent claims are patentable, both based on their dependencies on the independent claims and their patentability on their own. Reconsideration and withdrawal of the rejection of the claims is respectfully requested. Passing of this case is now believed to be in order, and a Notice of Allowance is earnestly solicited.

No amendment made was related to the statutory requirements of patentability unless expressly stated herein. No amendment made was for the purpose of narrowing the scope of any claim, unless Applicants have argued herein that such amendment was made to distinguish over a particular reference or combination of references.

In the event that the Examiner deems the present application non-allowable, it is requested that the Examiner telephone the Applicants' attorney or agent at the number indicated below so that the prosecution of the present case may be advanced by the clarification of any continuing rejection.
